(Re: Announcement sent on April 20, 2011 with sequence number 07317.DV)

After successfully placing out 1,137,331,973 shares in the initial public offering, GLENCORE INTERNATIONAL started trading on a conditional basis on the London Stock Exchange on May 19, 2011 prior to its unconditional trading on May 24, 2011.

Additionally, GLENCORE INTERNATIONAL will have a secondary listing on the Hong Kong Stock Exchange starting from May 25, 2011 after successfully placing out 31,250,000 shares in the initial public offering. As of the close of May 19, 2011, its first day of conditional trading, GLENCORE INTERNATIONAL has a full company market capitalization of USD 59.240 billion which is more than 1.8 times the Interim Market Size-Segment Cutoff.

The free float-adjusted market capitalization of GLENCORE INTERNATIONAL is USD 7,109 billion, more than 1.8 times one half of the Interim Market Size-Segment Cutoff. **Based on the closing price of GBP 5.3 on its first conditional trading day, GLENCORE INTERNATIONAL qualifies the early inclusion requirements stated in section 3.3.4.1 of the MSCI Global Investable Market Indices Methodology.** The effective date of an IPO eligible for early inclusion to the MSCI Indices is generally after the close of the security's tenth day of trading, in accordance with the MSCI Global Investable Market Indices Methodology (sub-sections 3.1.6.1 and 3.3.4.1). However, in certain cases, another date may be chosen for the inclusion to reduce turnover, for example, where the normal inclusion date is either 5 days before the effective date of the Index Review or 3 days after. The effective date of the Semi-Annual Index Review (SAIR) of May 2011 is June 1, 2011. **Consequently, GLENCORE INTERNATIONAL will be added to the Large Cap segment of the MSCI Global Standard Indices as of the close of May 31, 2011 (effective June 1, 2011)** to coincide with the effective date of the May 2011 SAIR with 6,922,713,511 shares, a Foreign Inclusion Factor (FIF) of 0.12, a Global Industry Classification Standard (GICS) of 15104020 - Diversified Metals & Mining, and a Value z-score of 0.6715 and a Growth z-score of -0.4753, leading to a Value Inclusion Factor (VIF) of 1.00.
