IMPORTANT INFORMATION

Right to attend and vote

- 1 The Company, pursuant to the Companies (Uncertificated Securities) (Jersey) Order 1999, specifies that only those persons entered on the Company's principal register of shareholders in Jersey (the "**Principal Register**") or the Company's branch register of shareholders in Hong Kong (the "**HK Register**") or the Company's branch register of shareholders in South Africa ("**SA Register**") as at 7 p.m. CEST on 17 May 2016 shall be entitled to attend and vote at the AGM in respect of the number of shares registered in their name at that time. Changes to entries on the Principal Register, HK Register or SA Register after 7 p.m. CEST on 17 May 2016 shall be disregarded in determining the rights of any person to attend or vote at the AGM. If the AGM is adjourned then, to be so entitled, shareholders must be entered on the Principal Register, HK Register or SA Register at 7 p.m. CEST on the day two days prior to the adjourned meeting or, if the Company gives notice of the adjourned meeting, at the time specified in that notice. Changes to entries in the Principal Register, HK Register or SA Register after 7 p.m. CEST on the relevant date shall be disregarded in determining the rights of any person to attend or vote at the adjourned meeting.

Proxy appointment

- 2 A shareholder who is entitled to attend, speak and vote is entitled to appoint another person as his proxy to exercise all or any of his rights to attend, speak and vote at the AGM. A proxy need not be a shareholder of the Company. A shareholder may appoint more than one proxy in relation to the AGM, provided that the total number of such proxies shall not exceed the total number of shares carrying an entitlement to attend such meeting held by such shareholder. Shareholders may appoint a proxy using the enclosed form of proxy, the CREST electronic proxy appointment service (described below) or Computershare's online proxy appointment service at www.investorcenter.co.uk/eproxy (also described below).
- 3 The appointment of a proxy will not prevent a shareholder from subsequently attending and voting at the meeting in person.
- 4 Any corporation which is a shareholder of the Company may, by resolution of its directors or other governing body, authorise such person as it thinks fit to act as its representative at the AGM. The person so authorised shall be entitled to exercise the same powers on behalf of such corporation as the corporation could exercise if it were an individual shareholder of the Company. Under the Companies (Jersey) Law 1991, corporations may only appoint one corporate representative. Corporations wishing to allocate their votes to more than one person should use the proxy arrangements.
- 5 Where a person is authorised to represent a body corporate, the Directors or the chairman may require him to produce a certified copy of the resolution from which he derives his authority.
- 6 Any person to whom this notice is sent who is a person nominated to enjoy information rights (a "**Nominated Person**") may, under an agreement between him and the shareholder by whom he was nominated, have a right to be appointed (or to have someone else appointed) as a proxy for the meeting. Alternatively, if a Nominated Person has no such right, or does not wish to exercise it, he may, under any such agreement, have a right to give instructions to the relevant shareholder as to the exercise of voting rights.
- 7 The statement of the rights of shareholders in relation to the appointment of proxies in paragraphs 2 and 3 above does not apply to Nominated Persons. The rights described in those paragraphs can only be exercised by the shareholders of the Company.
- 8 To be valid, an appointment of proxy must be returned using one of the following methods:
 - (i) by sending a duly authorised proxy form (together, if appropriate, with the power of attorney or other written authority under which it is signed or a certified copy of such power or authority) to the Company's registered office or the Company's registrars, Computershare at: c/o The Pavilions, Bridgwater Road, Bristol BS99 6ZY, United Kingdom or, for shareholders on the HK Register, Computershare Hong Kong Investor Services Limited, 17M Floor, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong or, for shareholders on the SA Register, Computershare South Africa Investor Services (Pty) Ltd, 70 Marshall Street, Johannesburg, 2001 South Africa ;
 - (ii) in the case of CREST members, by utilising the CREST electronic proxy appointment service; or
 - (iii) in the case of shareholders who have registered online, by utilising Computershare's online proxy appointment service at www.investorcenter.co.uk/eproxyand in each case the appointment of proxy (together with any relevant power or authority) must be received (or, in the case of the appointment of a proxy through CREST, retrieved by enquiry to CREST in the manner prescribed by CREST) by Computershare not later than 48 hours before the time appointed for holding the meeting.
- 9 If two or more valid but differing proxy appointments are received in respect of the same ordinary share, the one which is last received (regardless of its date or the date of its execution) shall be treated as replacing and revoking the others as regards that ordinary share and, if the Company is unable to determine which was last deposited, none of them shall be treated as valid in respect of that share.

CREST members

- 10 CREST members who wish to appoint a proxy or proxies through the CREST electronic proxy appointment service may do so by using the procedures described in the CREST Manual. CREST personal members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf.
- 11 In order for a proxy appointment or instruction made using the CREST service to be valid, the appropriate CREST message (a "**CREST Proxy Instruction**") must be properly authenticated in accordance with Euroclear UK & Ireland Limited's specifications and must contain the information required for such instructions, as described in the CREST Manual. The message, regardless of whether it relates to the appointment of a proxy or to an amendment to the instruction given to a previously appointed proxy must, in order to be valid, be transmitted so as to be received by the Company's agent not later than 11 a.m. CEST on 17 May 2016. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by the CREST Applications Host) from which the Company's agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST. After this time any change of instructions to proxies appointed through CREST should be communicated to the appointee through other means.
- 12 CREST members and, where applicable, their CREST sponsors or voting service providers should note that Euroclear UK & Ireland Limited does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST Proxy Instructions. It is the responsibility of the CREST member concerned to

take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider(s), to procure that his or her CREST sponsor or voting service provider(s) take(s)) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection, CREST members and, where applicable, their CREST sponsors or voting service providers are referred, in particular, to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

- 13 The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Article 34 of the Companies (Uncertificated Securities) (Jersey) Order 1999.
- 14 Each of the resolutions to be put to the meeting will be voted on by poll and not by show of hands. A poll reflects the number of voting rights exercisable by each shareholder and so the Board considers it a more democratic method of voting. It is also in line with recommendations made by the Shareholder Voting Working Group and Paul Myners in 2004. Shareholders and proxies will be asked to complete a poll card to indicate how they wish to cast their votes. These cards will be collected at the end of the meeting. The results of the poll will be announced to the relevant stock exchanges and published on the Company's website once the votes have been counted and verified.
- 15 The Company has included on the proxy form a 'Vote Withheld' option in order for shareholders to abstain on any particular resolution. However, it should be noted that a 'Vote Withheld' is not a vote in law and will not be counted in the calculation of the proportion of votes 'For' or 'Against' the particular resolution.

Appointing a proxy and voting online

- 16 You may, if you wish, register the appointment of a proxy and/or voting instructions for this meeting online by registering for the Computershare service, at www.investorcentre.co.uk/eproxy. Full details of the procedures are set out on this website. The proxy appointment and/or voting instructions must be received by Computershare by no later than 11 a.m. CEST on 17 May 2016. You will need to have your form of proxy to hand when you log on as it contains information which is required during the process.
- 17 Please note that any electronic communication sent to the Company or Computershare that is found to contain a computer virus will not be accepted.

Questions

- 18 Any shareholder attending the meeting has the right to ask questions. We recognise that not all shareholders will be able to attend the meeting. If you are unable to come to the AGM but would like to ask the Directors a question, please submit your questions in advance by email to investors@glencore.com by 11 am CEST on 18 May 2016.

Audit concerns

- 19 Shareholders should note that, shareholders meeting the threshold requirements set out in Section 527 of the UK Companies Act 2006 have the right to require the company to publish on a website a statement setting out any matter relating to: (i) the audit of the Company's accounts (including the auditor's report and the conduct of the audit) that are to be laid before the AGM; or (ii) any circumstance connected with an auditor of the Company appointed for the financial year 2012 ceasing to hold office since the previous meeting at which annual accounts and reports were laid. In accordance with the Articles, the Company shall comply with all the obligations relating to the publication of such statement contained in the provisions of sections 527 to 529 (other than section 527(5)) of the UK Companies Act 2006 as if it were a company incorporated in the United Kingdom, provided always that the Company shall not be required to comply with the obligation set out in section 527(1) of the UK Companies Act 2006 where the Board believes in good faith that such rights are being abused.

Information about shares and voting

- 20 The total number of issued ordinary shares in the Company on the date prior to the date at the end of the Notice of the AGM, which is the latest practicable date before the publication of this document is 14,586,200,066, carrying one vote each on a poll except for the 191,459,158 shares that the Company holds in treasury which do not have voting rights. Therefore the total number of votes exercisable at that date is 14,394,740,908.

Venue arrangements

- 21 To facilitate entry to the meeting, shareholders are requested to bring with them a form of identification.
- 22 Shareholders should note that the doors to the AGM will be open at 10.30 a.m. CEST.
- 23 For security reasons, all hand luggage may be subject to examination prior to the entry to the AGM. Mobile phones may not be used in the meeting hall, and cameras, tape recorders, laptop computers, video recorders and similar equipment are not allowed in the meeting hall.
- 24 We ask all those present at the AGM to facilitate the orderly conduct of the meeting. The Company reserves the right, if orderly conduct is threatened by a person's behaviour, to require that person to leave.
- 25 There will be facilities for shareholders who are in a wheelchair. Anyone accompanying a shareholder in need of assistance will be admitted to the meeting as a guest of that shareholder.

EXPLANATORY NOTES TO THE RESOLUTIONS

The following pages give an explanation of the proposed resolutions. The directors believe that the proposed resolutions are in the best interests of the Company and its shareholders and unanimously recommend shareholders to vote in favour, as the Directors intend to do in respect of their own beneficial shareholdings.

General Notes

Resolutions 14, 15 and 16 are proposed as special resolutions. This means that to be passed, at least three-quarters of the votes cast must be in favour of the resolution. All other resolutions are proposed as ordinary resolutions. This means that for each of those resolutions to be passed, more than half of the votes cast must be in favour of the resolution.

For each of resolution 13, 14 and 15:

- the calculations have been made on the basis of the issued share capital of the Company as at 13 April 2016, the latest practicable date prior to the publication of the notice of the AGM, being 14,586,200,066. At this date, the Company held 191,459,158 treasury shares; and
- if the resolution is passed, the authority will expire on the earlier of the conclusion of the Company's 2017 AGM or 30 June 2017.

In these notes a reference to an Article is to an Article of the Company's Articles of Association. These are available for viewing on the Company's website at: www.glencore.com/who-we-are/corporate-governance/articles-of-association/ and at the AGM.

Resolution 1: Report and Accounts

The first item of business is the receipt by shareholders of the audited accounts for the financial year ended 31 December 2015 together with the Directors' Report and the Auditors' Report.

Resolutions 2 to 9: Election and re-election of Directors

These resolutions seek shareholder approval for the re-election of all current Directors. The Board considers each Director to be effective in their role and that they continue to demonstrate the level of commitment required in connection with their role on the Board and the needs of the business.

Biographical details of the Directors are set out on pages 10-12 of this notice of AGM.

Resolution 10: Directors' Remuneration Report

Shareholders are invited to approve the Directors' Remuneration Report for the year ended 31 December 2015, which is included in the 2015 Annual Report. The vote on this resolution is advisory and no Director's remuneration is conditional upon the passing of this resolution.

Resolution 11: Re-election of Deloitte LLP as auditors

The Board, on the recommendation of the audit committee, recommends the re-election of Deloitte LLP as auditors, to hold office until the next meeting at which accounts are laid.

Resolution 12: Remuneration of the auditors

The remuneration of the auditors may be fixed by the audit committee or the Company in general meeting. The usual practice is for shareholders to resolve at the annual general meeting that the audit committee or directors decide on this remuneration.

Resolution 13: Authority to allot shares

The purpose of this Resolution is to renew the Directors' authority to allot shares. The proposed authority will allow the Directors to allot new shares and grant rights to subscribe for, or convert other securities into, shares up to a nominal value of U.S.\$47,982,496 which is equivalent to approximately one third of the total issued ordinary share capital of the Company, exclusive of treasury shares. This is in line with UK institutional shareholder guidelines.

There are no present plans to allot new shares.

Resolution 14: Disapplication of pre-emption rights

We have consulted with a number of our largest institutional shareholders who are members of the UK

Investment Association or the Pensions and Lifetime Savings Association as to whether a disapplication resolution should be proposed at this AGM and, if so, its extent.

There was unanimous support among these institutional shareholders for a disapplication resolution to permit share issues for cash up to a limit of 5%. Some of these shareholders were also in favour of a second resolution to be proposed for an additional 5% restricted cash authority. However, since opinion was divided on this point, the Company concluded that it would not propose such a second resolution this year.

Accordingly, the purpose of this resolution, which will be proposed as a special resolution, is to authorise the Directors to allot new shares pursuant to the authority proposed to be given by Resolution 13, or sell treasury shares, for cash (i) in connection with a pre-emptive offer or rights issue or (ii) otherwise up to a nominal value of U.S.\$7,293,100, equivalent to 5 per cent of the total issued ordinary share capital of the Company exclusive of treasury shares without the shares first being offered to existing shareholders in proportion to their existing holdings.

Resolution 15: Market purchase

The purpose of Resolution 15 is to put in place a new authority to enable the Company to make market purchases of up to 1,439,474,091 ordinary shares, being approximately 10 per cent of the issued ordinary share capital of the Company, exclusive of treasury shares. The Company's exercise of this authority is subject to the stated upper and lower limits on the price payable which reflect the requirements of the specified EU regulations, the UK Listing Rules and the provisions of Article 57 of the Companies (Jersey) Law 1991.

The Company will only exercise the power of purchase after careful consideration and in circumstances where, in the light of market conditions prevailing at the time, it is satisfied that it is in the best interests of the Company and of its shareholders generally to do so and where there would be a resulting increase in earnings per share.

The Companies (Jersey) Law 1991 permits the Company to hold any shares purchased by it as treasury shares as an alternative to immediately cancelling them. If the Company purchases any of its ordinary shares and holds them as treasury shares, the Company may sell these shares (or any of them) for cash, transfer these shares (or any of them) for the purposes of or pursuant to an employee share plan, cancel these shares (or any of them) or continue to hold them as treasury shares.

Holding such shares as treasury shares gives the Company the ability to reissue them quickly and cost effectively and provides additional flexibility in the management of the Company's capital base. No distributions will be paid on, and no voting rights will be exercised in respect of, shares held as treasury shares.

By way of illustration, the purchase of one per cent of the ordinary shares in the Company at the share price and exchange rate prevailing on 1 April 2016 would, on the basis of the Group's 2015 financial statements, increase net debt and reduce equity attributable to shareholders by about US\$307 million and would increase the ratio of net debt to total capital by 0.4 percentage points, i.e. to approximately 52 per cent.

Resolution 16: Requisitioned resolution – strategic resilience for 2035 and beyond

This resolution has been requisitioned by a group of Glencore plc shareholders. The coalition includes the Local Authority Pension Fund Forum and the largest members of the Church Investors Group, together with Hermes Investment Management on behalf of stewardship services clients, Sarasin & Partners, Pensions Trust and Rathbone Greenbank Investments. They have also provided the explanatory statement set out in in the Appendix to this document which provides more detail on this *Aiming for A* coalition climate change resolution.

The Chairman and head of sustainability met with representatives of the coalition prior to the requisition being submitted and expressed their support of the resolution's purpose.

The Company already discloses the Group's energy and emissions performance and position on climate change in its annual Sustainable Development report. The Company has begun to assess its existing disclosures, commitments and carbon-related activities and determine what additional reporting on risks associated to climate change would be required to comply with the resolution.

Supporting Statement for Resolution 16 from the requisitioning shareholders

The following has been provided to the Company. The Company has not contributed to or commented upon any of its contents. Accordingly, neither the Company nor any of its officers or employees is responsible for any aspect of this statement.

It is our intention that this is a supportive but stretching shareholder resolution. Like the resolutions filed at the 2015 BP and Royal Dutch Shell AGMs, which were approved by the boards of both companies, recommended for support by proxy advisers, and passed overwhelmingly by shareholders, this resolution has been prepared by the "Aiming for A" investor coalition on behalf of a larger co-filing group.

The resolution seeks deeper disclosure on the same five issues of climate change risk and opportunity management as the BP and Shell Resolutions. Following engagement with the mining companies covered by "Aiming for A", and the development by the Global Investor Coalition on Climate Change of an expectations document for mining companies¹ the filing group believes that the strategic issues identified for oil and gas companies apply equally in the diversified mining sector.

"Aiming for A" background

The "Aiming for A" coalition includes the Local Authority Pension Fund Forum and the largest members of the Church Investors Group, together with Hermes Investment Management on behalf of its stewardship services clients, Sarasin & Partners, Pensions Trust and Rathbone Greenbank Investments. The coalition was initially convened by CCLA in 2011/12. The group is undertaking engagement with the ten largest UK-listed extractives and utilities companies, with a particular focus on the companies, COP performance bands.

There are several reasons why UK asset owners and managers have come together to support companies in their preparations for the low-carbon transition. These range from systemic risk management and our collective fiduciary duty to engage in economic transformation, through to amplifying longer-term investor voices and involving ultimate beneficiaries.

We believe that supportive but stretching shareholder resolutions can play a positive stewardship role in the UK and emphasise the need to balance the short and longer term aspects of shareholder value creation.

The wider co-filing group includes institutional asset owners and fund managers from both the UK and overseas. The asset owners span charitable foundations, Church investors and pension funds as well as individuals. The co-filing process has been assisted by the law firm Client Earth.

Awareness of the risk to long term investors from climate change, including the potential 'stranding' or underperformance of assets has risen significantly. Notable contributions to the debate have been made by the Bank of England² Mercer³, and Carbon Tracker⁴. As an illustration of the magnitude of financial risks carried in the extractives sector, the IEA estimate that up to \$300 billion of fossil fuel investments alone could be stranded in a low carbon scenario⁵

The resolution covers five related areas:

1. Ongoing operational emissions management

In 2015 Glencore's CDP⁶ performance rating slipped from 8 to c (on an A-E scale). Within the performance banding methodology, considerable weight is given to operational emissions management, alongside strategic and governance issues like those below. The "Aiming for A" coalition and other investors would like to see the company progress towards reaching best in class performance.

2. Asset portfolio resilience to post – 2035 scenarios

Glencore has a diverse portfolio of assets, with significant exposure to commodities for which demand could rise during the move to a low carbon economy (such as copper) as well as exposure to commodities where demand is likely to fall, such as coal and iron ore. We ask that an assessment of the portfolio's resilience against the range of IEA⁷ or other relevant post-2035 low carbon scenarios of equivalent ambition, be outlined to investors in routine reporting from 2017 for relevant potentially exposed commodity

groups. Investors are also interested in the role that exploration, disposals and cash distributions to investors will play in the nearer term.

3. Low carbon energy R&D and investment strategies

Glencore has highlighted the important role that technology could play to reduce greenhouse emissions whilst supporting economic growth, including deployment of best-in-class ultra-super critical coal-fired power and also carbon capture and storage (CCS). Glencore's 2015 sustainability report references the company's financial support for CCS, including the Callide Oxyfuel Project in Australia. Investors are interested in Glencore's long-term strategy in these areas, including the amount to be invested.

4. Strategic KPIs and executive incentives

Glencore's senior management collectively own approximately 20% of the company and therefore their interests in the company should be aligned with those of long-term shareholders. However, Glencore's key performance indicators and the link to long term executive remuneration are not transparent to investors. Transitions that span decades are complex to manage and often require lead indicators and incentives. Investors are interested to understand the company's approach to key performance indicators and executive incentives relevant to the transition to a low carbon economy.

5. Public policy interventions

Glencore is a member of the World Coal Association and has made known its view that it is important to find global solutions to climate change which recognise the significant role of coal in today's energy mix. Investors are interested in the evolution of Glencore's public policy strategy, including positions on key agreed public policy goals and likely implementing measures, especially for the critical policy-making period up to 2020 when governments are expected to be preparing to implement their international greenhouse gas reduction commitments.

These requests are consistent with the commitment made in the 'Global Investor Statement on Climate Change' signed by investors representing \$24tn of assets⁸ and build on the Carbon Asset Risk (CAR) initiative⁹.
