

Glencore International PLC - Intention to float Expected Treatment In FTSE Indices

14 April 2011

In relation to today's announcement by Glencore International PLC regarding its intention to float, FTSE anticipates that, on the basis of the information currently available, Glencore International will be eligible as a fast entrant to the FTSE UK Index Series and the FTSE Global Equity Index Series (i.e. included in the FTSE 100 and the FTSE All-World indices after close on the first day of unconditional dealings).

Notes to editors:

Glencore International's eligibility to the UK Series is subject to FTSE UK Index Series Rule 4.2.3 (governing Nationality). Following discussions with company representatives it is anticipated that the published prospectus will confirm compliance with this rule.

In accordance with FTSE UK Index Series Rule 7.3.1 (governing Fast Entry) a company's full market capitalisation must amount to 1% or more of the full capitalisation of the FTSE All-Share (which currently equates to approximately GBP 20bn).

In accordance with FTSE Global Equity Index Series Rule 7.1.3 (governing Fast Entry) the current fast entry level (for Developed Europe) is USD 28.4bn.

FTSE will issue a further notice to confirm index eligibility details following publication of the prospectus and upon pricing details being confirmed.
